

Patriot Group

Company Overview

Legal & Compliance Solutions for Healthcare Providers

Patriot Group is a veteran-owned legal and compliance consulting firm that provides strategic support to healthcare providers across the country. Founded by healthcare attorney and U.S. Marine Corps veteran Thomas J. Force, Esq., the firm is trusted for its ability to strengthen compliance, reduce revenue loss, and fight back against unfair payer practices.

Our Services Include:

Revenue Cycle Management: Full service revenue cycle management, including eligibility, pre-authorization, verification of benefits, coding, billing, follow up and appeals of denials or under-payments.

Payor Audit Defense: Patriot attorneys provide comprehensive defense against payor audits, including retrospective denials, improper coding determinations, insufficient documentation of services, and fee forgiveness issues. Our team analyzes audit findings, formulates strategic objections, and pursues appeals to protect providers' rights and revenue.

Independent Dispute Resolution (IDR): Full-service IDR support under the No Surprises Act to help providers recover fair payments.

Medical Billing & Coding: End-to-end billing support for in- and out-of-network providers, with a focus on coding accuracy and compliance.

Legal & Regulatory Consulting: Guidance on evolving healthcare laws, payer rules, and compliance risks tailored to your specialty.

Why Providers Choose Patriot Group

Providers choose Patriot Group for our legal expertise, hands-on approach, and deep understanding of payer tactics. We provide more than just consulting—we deliver results by navigating the complexities of insurance disputes, regulatory compliance, and revenue recovery. Our veteran-owned team brings discipline, integrity, and determination to every client engagement.
